Description of Work:

Original house has an approximately 100 year old addition measuring 18' x 28' at a right angle and to the rear of the main house. The addition was built with a Gambrel style roof, of the home engineered variety, which is failing and may collapse under snow load. The proposal is to remove the roof from the top plate of the walls on up and to replace with a conventionally framed 2 x 12 rafter structure with 2 x 8 collar ties. The 2nd floor bedroom below the roof has an adjoining bathroom, which will be gutted and re-done with new plumbing and fixtures. The bed and bath will receive new electrical, plumbing, insulation, drywall.
